

RAY

RAY MARQUEE 280

This structure is praised for its unique and spatial design. The RAY Marquee 280 is perfect to use as a restaurant and/or event tent. It already has been used for multiple purposes at wineries, museums, resorts and festivals.

The Marquee 280 can be used seasonal as it is easy to build & break. Off-course you can also leave it on the same spot for years.

It can be created with and without an inner tent. And is available in 42 colours.

Materials

The outer-skin is made from PVC, the innerskin from Canvas-Polycotton. This means that the structure complies to the European standards for fire retardant and is easy to clean.
