

RAY

RAY MARQUEE 450

The RAY Marquee_450 is the perfect structure to use for events or as a large restaurant. It is often used for weddings or business events. The atmosphere inside offers you the possibility to create a unique experience for your visitors.

This structure can be installed and left on the same place for years. However, if you like to use it more as a flexible space this is also a suitable structure, as build & break is relatively easy. The structure can be created with and without an inner tent and in 42 different colors.

Materials

The outerskin of this structure is made from PVC, the innerskin from Canvas-Polycotton. This means that the structure complies to the European standards for fire retardant and is easy to clean.

RAY

RAY MARQUEE 450
