

RAY

RAY MARQUEE 575

The RAY Marquee_575 is the perfect structure to use for events or as a large restaurant. It comes with a beautiful porch. With this structure the weather can never spoil your event as you are flexible between inside and outside space. The atmosphere offers you the possibility to create a unique experience for your visitors.

This is a huge structure that in most cases stays on the place where it's built the first time. However, we also have experience with customers who used it as a seasonal structure in spring and summer.

The structure comes with an inner tent. For the fabric you can pick out of 15 different colors.

Materials

The outerskin of this structure is made from PVC, the innerskin from Canvas-Polycotton. This means that the structure complies to the European standards for fire retardant and it's easy to clean.
